**CLINICAL ENGINEER (GAUTENG)**  
**PREFERABLY AA**  
**SALARY PACKAGE NEGOTIABLE**

Medhold Medical seeks suitably qualified, high-energy performer with drive, to fill the above varied and challenging position, responsible for defined/specific geographical territories and reporting to the Area Service Manager.

**The successful candidate must:**

- Have at minimum of a Diploma in Clinical Engineering;
- Have a good knowledge of monitoring, cardiology equipment, anaesthesia, ventilation and electronics;
- Be computer literate (Excel, Internet, Word will be an advantage);
- Have at least 5 years working experience with two years in a service environment;
- Have a proven service performance record;
- Have good communication, telephone and interaction skills;
- Be assertive and able to deal with other members of staff at different levels;
- Have good administration skills;
- Have the ability to work under pressure and still maintain high standards;
- Be a self-starter, deadline and results oriented;
- Experience with the Company's various product ranges will be an added advantage.

**The Core responsibilities will amongst others be:**

- Planning and organizing service call cycles geographically and economically;
- Establishing positive relations with customers through effective and efficient service delivery;
- Minimizing down time and maximizing turn-around time;
- Handling customer quotes;
- Ensuring that agreed budget/targets are achieved;
- Ensuring sound administration of area of responsibility;
- Always projecting a positive company image in interactions with customers;
- Ensuring effective two-way communication with management takes place on a regular basis;
- Time management.

Should you feel you are suitably qualified, please respond to Beverley Thuynsma at [b.thuynsma@medhold.co.za](mailto:b.thuynsma@medhold.co.za).
