

Vacancy: Medical Visualisation Installation & Service Technician

Location: Pretoria, South Africa

Sector: Medical Visualisation Systems

We are seeking a motivated and technically skilled **Medical Visualisation Installation & Service Technician** to join our forward-thinking team delivering cutting-edge solutions in the medical sector. If you thrive on hands-on technical work, enjoy liaising with clients and suppliers, and excel under pressure, we want to hear from you.

Key Responsibilities

- Perform **medical visualisation installations (in theatre)**, ensuring systems meet client specifications and compliance standards.
 - Provide on-site support, servicing, and preventative maintenance for medical visualisation equipment.
 - Troubleshoot network setups and resolve technical issues efficiently.
 - Coordinate timely deliveries to clients and collections from suppliers.
 - Maintain accurate job cards, service reports, and technical documentation.
-

Requirements

- **Tertiary qualification** in a relevant field (e.g., National Diploma – Electrical Engineering (Light Current) / Clinical Engineering).
 - **Minimum 3 years'** experience in installations and/or technical support.
 - Prior experience in the **medical field** is advantageous.
 - Strong **electronics background** with hands-on technical proficiency.
 - Computer literate, with networking and network setup skills.
 - Excellent command of **English** (written and spoken).
 - Professional telephone etiquette and strong interpersonal communication skills.
-

Personal Attributes

- Neat, methodical approach to work and documentation.
- Logical planner who minimises downtime and maximises turnaround.
- Ability to perform under pressure while maintaining high standards.

- Punctual, reliable, and accountable.
 - Willingness to **travel nationally**, including overnight stays when required.
 - Flexibility to work overtime as operational needs dictate.
-

Driver & Transport

- **Valid Code B driver's licence** (mandatory).
 - **Own reliable transport** (mandatory).
-

How to Apply

Please submit the following documents with your application:

- Copies of relevant **qualification certificates**
- Copy of your **valid driver's licence**
- A detailed **CV** outlining your experience

 Send your complete application to **info@ican-automation.co.za** with the subject line:
Application – Medical Visualisation Installation & Service Technician (Pretoria)

Applications that do not meet the minimum requirements will not be considered.
Only shortlisted candidates will be contacted.

We look forward to welcoming a dedicated professional ready to make an impact in a dynamic, service-oriented environment. If this sounds like you — apply today!
